RESPONSE UNDER 37 CFR 1.116

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Responsive to the Office Action mailed May 18, 2001, and Examiner's comments with regard thereto, please amend and reconsider the above-identified patent application in view of the amendments and remarks presented hereinafter.

IN THE SPECIFICATION:

On page 3, delete paragraph 2 and insert the following paragraph 2:

FIG. 2 illustrates a 3-D multi-plane coupling structure of the prior art with the associated upper and lower coupling plates 200 and 202 with current vectors (" i_0 " and " i_2 ", respectively). The coupling plates 200 and 202 have an H-field generated by RF current " i_1 " propagating along transmission line 201 that induces H-fields of like polarity on coupling plates
